

FOR IMMEDIATE RELEASE: April 1, 2011

**VDS is now a Unified Communications Solutions Partner with Polycom, Inc.!**

Grand Rapids, Michigan, April 1, 2011 – Voice Data Systems, LLC (VDS) is pleased to announce that it has achieved the status of Unified Communications Solutions Partner through Polycom, Inc., the global leader in Unified Communications with industry-leading telepresence, voice and video. As a leading provider of Unified Communications, VDS is committed to helping organizations transform the way they interact and collaborate.

“We are thrilled to be a Polycom Unified Communications Certified Partner! As technology transforms, combining the strength of VDS and the power of Polycom means a winning combination for our customers.” said James Kress, President of VDS. The importance of real time collaboration is critical to the success of any business. Unified Communications allows you to collaborate any-time, anywhere, using any tool. “With over 20 years of history in the voice industry, Polycom is proud to welcome VDS as a Unified Communications Solutions Partner! This partnership is a great example of how VDS and Polycom work together to provide customers with the tools to help them collaborate real-time, right now!” said Dan LeJeune, Regional Channel Manager at Polycom, Inc.

“It is an exciting time to be in the technology industry! The demand for new technology including Unified Communications and the convergence of voice and data systems is greater than ever. VDS is proud to continue its investment in the expertise and knowledge needed to implement and support these complex solutions,” said Pete Rose, Chief Technology Officer for VDS. VDS will be hosting a free webinar discussing the VDS and Polycom Partnership on April 15, 2011. If you are interested in attending please email [info@govds.com](mailto:info@govds.com) for more information.
